

INVISA COOK

The Original

Cook Directly On Your Kitchen Countertop

How Does It Work?

Induction Hob Require
Induction Compatible Magnetic Cookware

- ✓ The hidden  hob allows to cook directly on the countertop in comfort and safety.
- ✓ The technology is based on induction hob that heat the pot or pan directly, rather than, heating the countertop.
- ✓ The use of  is suitable for stainless steel metal pots and pans.
- ✓ By using the placemat provided with the product, the heat transferred from the pot to the surface is reduced and does not overheat the surface.
- ✓ The use of  is suitable for all-natural stone, granite that is milled to 15mm, 12 mm, and the ultra-compact porcelain material that is 12 mm. Not suitable for "quartz countertops".
- ✓ 5-year warranty (full warranty for the first year + four-year warranty limited)

Benefits

Thanks to **INVISACOOK** hob, you can utilize your countertop and save valuable space.

Reduce cooking and frying times due to direct heating of the pan or pot.

Energy saving, as 90% of the energy is used directly to heat the induction cookware.

Easy maintenance and cleaning, due to a seamless kitchen.

The control-panel can be hidden from environmental influences and can be controlled using a mobile phone or tablet.

Heat & Safety Control - The unit supplies or cuts off energy immediately by operating the unit through the touch screen control-panel.

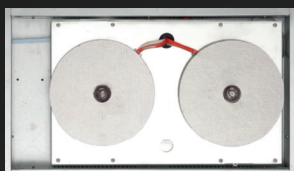

Can also be used in outdoor kitchens.

INVISA MAT

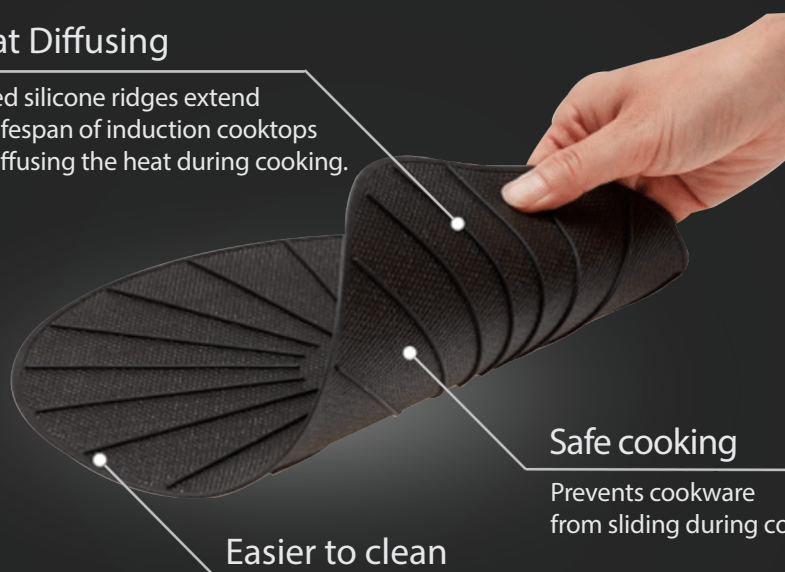

Induction & Anti-Slip Cooking Mat

INVISA  MAT SHOULD ALWAYS BE USED WHILE USING

Heat Diffusing

Raised silicone ridges extend the lifespan of induction cooktops by diffusing the heat during cooking.

Safe cooking

Prevents cookware from sliding during cooking.

Easier to clean

Ridges contains spills, preventing them reaching your induction cooktop.

INVISA  MAT

Flexible and Durable

Formula of silicone and fiberglass prevents scratches and scrapes from contact with cookware.

- The INVISA  MAT - Reduce the intensity of the heat transferred from the pot to the surface by 50%.
- Dishwasher safe.

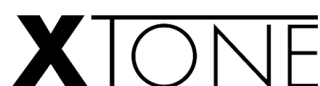

Recommended Countertops

The Invisacook hob can be connected to all types of granite (up to 15mm) & porcelain (up to 12 mm).
